Happy New Year to you as well Katie -

We are still awaiting copies of the final project design plans, so the ones we currently have are the most recent project files. I will continue to push our partners for the final versions, which you know have been promised to us for many months now.

Yes - I look forward to meeting you as well at the public hearing!

Thank you!
Dennis

Dennis,

Happy New Year! I hope 2020 is treating you well so far.

I know the EPA Public Hearing is coming up on January 28, 2020, so I was going to start drafting the Corps' permit documents in order to be prepared once the NPDES permit is finalized.

What is the status on the final project design plans? Can you send me the most recent project plans? I don't remember where we left off on this matter since so much time has passed.

I will see you at the public hearing, so we can finally meet face-to-face.

Respectfully,
Katy

Ok. Since the ESA consultation is still pending, there is time. I will touch base with you if that gets finalized before I start drafting the permit documents.

Respectively,
Katy

Katie -

The project plans have not been finalized, but we are working diligently to that end, and will make them available to all once completed.

Thank you -

Dennis,

Have the project plans been finalized yet? I would prefer to not issue off an old plan (i.e. block anchors) only to have a permit modification required. This is not a good use of anyone's time.

Respectively,
Katy
